

Safety Instructions – Cooling Pillowcase

IMPORTANT SAFETY INFORMATION

1. Intended use

The cooling pillowcase is designed to be fitted over a pillow as a layer that improves comfort during rest and sleep.

The nylon fabric provides a pleasant cooling sensation when in contact with the body, making the product especially suitable for summer and hot weather.

The product is intended for household use. It is not an electrical device, air-conditioning device or medical device.

2. Technical parameters and material

- Product: cooling pillowcase.
 - Material: cooling nylon fabric.
 - Closure: zipper.
 - The pillowcase should be matched to the dimensions of the pillow.
 - The cooling effect results from the properties of the material and contact with the body.
 - The product does not require electricity or additional cooling inserts.
 - Exact dimensions and care instructions are provided on the product label.
-

3. Safe use instructions

- Use only as a pillowcase.
 - Before use, make sure that the pillowcase is clean, dry and undamaged.
 - Insert a pillow of the correct size into the pillowcase.
 - Close the zipper carefully without catching the fabric.
 - Do not use the product if the fabric, seams or zipper are damaged.
 - Protect the pillowcase from sharp objects and excessive stretching.
 - Do not use it as a bag, toy, transport aid or fall-protection element.
 - Discontinue use if skin irritation or discomfort occurs.
-

4. Cleaning and maintenance

- Clean in accordance with the information on the care label.
 - Close the zipper before washing.
 - Use mild detergents intended for delicate fabrics.
 - Do not use bleach, solvents or aggressive chemical agents.
 - Do not wash or dry at a temperature higher than that specified on the label.
 - Do not iron the cooling surface unless ironing is permitted on the care label.
 - Allow the product to dry completely before reuse or storage.
-

5. Warnings

- ⚠ The product is not a toy.
 - ⚠ Do not use the pillowcase if the fabric, seams or zipper are damaged.
 - ⚠ Do not allow children to play with the pillowcase or zipper.
 - ⚠ Do not cover the face or airways with the product.
 - ⚠ Do not use in an infant cot or as part of an infant's sleeping environment unless the manufacturer has expressly approved such use.
 - ⚠ Do not use near open flames, heaters or other sources of high temperature.
 - ⚠ The product does not protect against overheating and does not replace adequate hydration, room ventilation or appropriate protection from hot weather.
-

6. Packaging information

- The product is packed in plastic packaging that protects it during transport and storage.
 - After unpacking, inspect the condition of the fabric, seams and zipper.
 - ⚠ Plastic packaging is not a toy – risk of suffocation.
 - Keep the packaging away from infants, children and animals.
 - After unpacking, dispose of the plastic packaging immediately or place it in the appropriate recycling container.
-

7. Disposal

- Dispose of a worn or damaged pillowcase in accordance with local textile-waste collection rules.

- Dispose of the plastic packaging through separate plastic-waste collection.
 - Do not burn the product or packaging in household heating appliances or over an open fire.
-

8. Safety and regulatory compliance

The product is safe when used as intended and in accordance with these instructions and the information provided on the product label.

The product complies with the requirements of Regulation (EU) 2023/988 on general product safety.

If damage or a safety-related incident is identified, discontinue use and contact the manufacturer or distributor.
