

Safety Instructions – Cooling Mattress Topper

IMPORTANT SAFETY INFORMATION

1. Intended use

The cooling mattress topper is designed to be placed on top of a mattress as an additional layer that improves comfort during rest and sleep.

The jacquard-nylon fabric provides a pleasant cooling sensation when in contact with the body, making the product particularly suitable for summer and hot weather.

The topper is intended for household use. It is not an electrical device, air-conditioning device or medical device.

2. Technical parameters and material

- Product: cooling mattress topper.
 - Top material: cooling jacquard-nylon fabric.
 - The surface provides a pleasant cooling sensation when in contact with the body.
 - The product is waterproof, which helps protect the mattress from moisture.
 - The topper is equipped with elastic straps that allow it to be secured to the mattress.
 - The product size must be matched to the dimensions of the mattress.
 - The cooling effect results from the properties of the material and does not require electricity or additional cooling inserts.
 - Exact dimensions and care instructions are provided on the product label.
-

3. Safe use instructions

- Use only as a mattress topper.
- Before use, make sure that the topper and mattress are clean, dry and undamaged.
- Spread the product evenly and secure the straps around the corners of the mattress.
- Make sure that the topper is not rolled up, creased or excessively displaced.
- Do not use the product if the fabric, seams or fastening straps are damaged.
- Protect the product from sharp objects and excessive stretching.
- Despite its waterproof properties, do not leave the product wet or exposed to constant moisture for long periods.
- Do not use it as a transport mat, toy, fall-protection element or for carrying people.
- Discontinue use if skin irritation or discomfort occurs.

4. Cleaning and maintenance

- Clean in accordance with the information on the product care label.
 - Remove minor dirt with a damp cloth.
 - Use mild detergents intended for delicate fabrics.
 - Do not use bleach, solvents or aggressive chemical agents.
 - Do not wash or dry at a temperature higher than that specified on the label.
 - Do not iron the cooling surface unless ironing is permitted on the care label.
 - Allow the product to dry completely before reuse or storage.
-

5. Warnings

- ⚠ The product is not a toy.
 - ⚠ Do not use the product if the fabric, seams or fastening straps are damaged.
 - ⚠ Loose or damaged straps may create an entanglement hazard. A damaged product must be withdrawn from use.
 - ⚠ Do not allow children to play with the product or fastening straps.
 - ⚠ Do not cover the face or airways with the product.
 - ⚠ Do not use in an infant cot or as part of an infant's sleeping environment unless the manufacturer has expressly approved such use.
 - ⚠ Do not use near open flames, heaters or other sources of high temperature.
 - ⚠ The product does not protect against overheating and does not replace adequate hydration, room ventilation or appropriate protection from hot weather.
 - ⚠ A wet or improperly secured topper may move. Before use, make sure that it lies securely on the mattress.
-

6. Packaging information

- The product is packed in plastic packaging that protects it during transport and storage.
 - After unpacking, unfold the topper and inspect the condition of the fabric, seams and fastening straps.
- ⚠ Plastic packaging is not a toy – risk of suffocation.

- Keep the packaging away from infants, children and animals.
 - After unpacking, dispose of the plastic packaging immediately or place it in the appropriate recycling container.
-

7. Disposal

- Dispose of a worn or damaged topper in accordance with local textile-waste collection rules.
 - Dispose of the plastic packaging through separate plastic-waste collection.
 - Do not burn the product or packaging in household heating appliances or over an open fire.
-

8. Safety and regulatory compliance

The product is safe when used as intended and in accordance with these instructions and the information provided on the product label.

The product complies with the requirements of Regulation (EU) 2023/988 on general product safety.

If damage or a safety-related incident is identified, discontinue use and contact the manufacturer or distributor.
