

Safety Instructions – Cooling Dog Bed

IMPORTANT SAFETY INFORMATION

1. Product purpose

The cooling bed is intended for dogs as a place for rest, relaxation and lying down.

The product is especially suitable for the summer period and hot weather, providing a pleasant cooling effect when the dog's body comes into contact with the cooling mattress.

The bed can be used at home, on a terrace, balcony and in other dry and safe places intended for animals.

The lack of a front side makes it easier to enter the bed, making the product also suitable for small, elderly or ill dogs.

The product is intended exclusively for animals. It is not a toy and should not be used by children for play.

2. Technical parameters and material

- Product: cooling dog bed.
 - Mattress: jacquard-nylon cooling fabric, providing a pleasant cooling effect when in contact with the dog's body.
 - Bed sides: waterproof material helping to protect the inside from moisture.
 - Filling: soft filling made of shredded polyurethane foam, increasing resting comfort.
 - Cover: removable, making washing, refreshing and keeping the bed clean easier.
 - The materials are safe for animals and have OEKO-TEX certificates.
 - The product is made of safe and non-toxic materials.
 - The product does not contain SVHC substances in concentrations above 0.1%.
-

3. Safe use instructions

- Use only as intended – as a bed for a dog.
- Place the bed on a stable, dry and flat surface.
- Before use, make sure that the bed is dry, clean and undamaged.
- The bed may be vacuum-packed or rolled for transport. After unpacking, leave it in a dry and well-ventilated place – the bed should regain its full shape and volume after approximately 48 hours.
- Do not use the bed as a transport mat, toy, mattress for people or impact-absorbing element.
- Do not allow the dog to bite, pull or tear the bed intensively.
- Do not use the product if the material is torn, seams or zipper are damaged, or the filling is coming out.
- Despite the waterproof sides, the bed should not be left for long periods in standing water or constant moisture.
- If used outdoors, it is recommended to store the bed in a dry place during heavy rain, storms, hail, frost or strong wind.
- Regularly check the condition of the bed, especially if it is used by an elderly, ill dog or a dog that tends to chew objects.

4. Cleaning and maintenance

- In most cases, dirt can be removed with a damp cloth.
- In case of heavier dirt, remove the cover and wash it according to the instructions on the product label.
- Use mild detergents intended for fabrics.
- Do not use aggressive chemicals, bleach or solvents.
- Do not iron the cooling surface unless otherwise stated by the manufacturer on the label.
- After washing or cleaning, dry the cover and filling thoroughly before reuse.
- Before storage, make sure the bed is completely dry to prevent mould and unpleasant odours.

5. Warnings

- ⚠ Product intended exclusively for animals.
- ⚠ The product is not a toy – keep away from children without supervision.
- ⚠ Do not use the product if the material, seams, zipper or filling are damaged.
- ⚠ Do not allow the dog to bite or swallow fragments of the material or filling.
- ⚠ If the animal swallows a fragment of the product, contact a veterinarian.
- ⚠ Do not use near open flames or sources of high temperature.
- ⚠ The cooling effect results from the properties of the material and contact with the dog's body – the product is not an electrical or medical device.
- ⚠ The bed does not replace access to water, shade or proper care for the dog during hot weather.

6. Packaging information

- The product is packed in plastic packaging to protect it during transport.
- ⚠ The plastic film is not a toy – there is a risk of suffocation.
- Keep the packaging away from infants, children and animals.
- After unpacking, dispose of the plastic film immediately or send it for recycling.

7. Disposal

- The product and its packaging should be disposed of through selective collection of textile waste, plastic waste and foam waste, in accordance with local waste sorting rules.
- Do not dispose of with household waste if local regulations require selective collection.
- Dispose of worn or damaged products in accordance with local waste management regulations.

8. Safety and compliance with regulations

The product complies with the requirements of Regulation (EU) 2023/988 (GPSR) on general product safety.

The product is safe to use in accordance with its intended purpose and made of materials intended for contact with animals.

The product does not contain harmful substances in concentrations above the permitted limits.
